

**NEW**

# Motorized Solutions for Every Home

Bali Motorized Shades make every day a little easier. With our range of options, **there's a motorized solution for every customer.**

## *New* Z-Wave Motor on Select Products

We've upgraded the Z-Wave motor on our most popular shades.

- Available with solar, roller, cellular, and pleated shades
- Quieter operation
- Long-lasting performance
- Can be operated with 3 remotes, and the NEW Bali App
- Low voltage motorization; no costly electrical hardwiring required
- Pushbutton control on shade endcap
- Powered with plug-in transformer, NEW rechargeable battery pack, or non-rechargeable batteries

## *New* App & Gateway

Connect your Bali Motorized Shades with the gateway device and app to control your shades on your phone or with your voice.

- Convenient mobile app for shade control with iOS or Android devices
- Controls any—and all—Bali Z-Wave Shades
- Intuitive and user-friendly
- Simple integration—no need for a third-party hub
- Connects with Z-Wave technology for broader in-home range
- Uses gateway device that connects the app to shades and devices like Amazon Alexa and Google Assistant

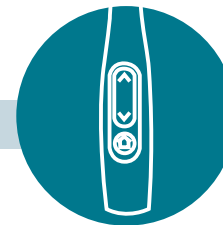

## *New* Rechargeable Battery Pack

The rechargeable battery pack offers a simple, convenient way to power your shades—No hassles, no maintenance, no disposable batteries.

- Only needs charging roughly once a year—Powerful 12-volt lithium batteries charge completely in five hours and are then good to go for about another year\*
- Holds up to 20% more battery charge than other motors\*\*
- Compatible with ALL Bali Z-Wave Shades and Motorized Wand Shades
- Retrofit capable—Mounting clips remain the same as the existing battery pack

\*Based on 3100 mAh compared to 2600 mAh in the competition.

\*\*Estimated 12-month battery life based on average 48" x 60" shade operated once per day

## *New* Motorized Wand

Our motorized wand is an intuitive, 3-button wand attached to the shade. It's our simplest way to motorize.

- Attached to shade for a wand so you won't accidentally misplace your remotes
- Available with cellular, pleated, solar, and roller shades
- Two color options: white and black
- Variety of lengths for small to large windows: 24", 36", 48", 84"
- Powered with plug-in transformer, NEW rechargeable battery pack, or non-rechargeable battery packs
